

## What is the *Global Coalition To Bring Jiang To Justice*?

**The mission of the *Global Coalition To Bring Jiang To Justice* is to stop persecution and genocide in the world's most populous country – China – dead in its tracks.** The Coalition has no political purpose or agenda, simply the goal to defend morality, human rights, and justice by shining the light on former leader Jiang Zemin so that the world's people can judge his crimes against humanity on the basis of truth and conscience.

**The Coalition was formed because in the face of violence and lies, good people cannot remain silent.** When humanity's fundamental freedoms are jeopardized and basic human rights violated, we cannot look on with indifference. The essential values we rely on for survival are being challenged, so we must join together to defend them. Otherwise, we will pay a heavy price in the future, as shown to us by history. The Coalition's aim is to unite all who want to see an end to the atrocities being perpetrated in China. We understand that one individual or any organization alone cannot accomplish this goal, so we must unite as one voice – a voice that can be heard around the world!

**In the short run, bringing Jiang to justice will stop him and his regime from brutalizing China's citizens.** It will stop him from draining the nation's resources to fund nationwide persecution, and from pressuring other countries into going against their conscience to condone the regime's behavior in return for economic gain. It will also warn other Chinese officials not to follow the will of a tyrant.

**In the long run, such action will have a positive impact on China's attitude toward civil and human rights, morality, and rule of law.** It will also contribute to world peace, development, and prosperity. By working together with organizations and people around the world to expose Jiang's crimes, the world's citizens will send a message to tyrants everywhere that such behavior will no longer be tolerated and that justice will indeed prevail.

**The response to the Coalition so far has been overwhelming.** The Global Coalition is currently made up of over 80 organizations and 30 kind-hearted individuals from different parts of the world who want to see the persecution of innocent people end. Members include organizations representative of Christians, Tibetans, Falun Gong practitioners, scholars, physicians, human rights activists, and many concerned individuals worldwide.

Together, our scope is limitless and what we can accomplish is boundless!
